

PRATIK SINGH

Aspiring AI/ML Engineer

Noida/Delhi, India | +91 7827045407 | prxt1ksngh@gmail.com | linkedin.com/in/pratiksingh-ds-aiml | github.com/pratiksinghds

SUMMARY

Aspiring AI/ML Engineer with a BSc in Data Science and an ongoing MBA in Aviation Management (Business Management and Data & AI specializations). Builds and ships end-to-end machine learning and generative AI projects — from RAG pipelines and multi-agent LLM systems to recommendation engines and BI dashboards — using Python, LangChain/LangGraph, and modern data tooling. Seeking an entry-level AI/ML Engineer role to apply applied ML and software engineering skills in a production environment.

TECHNICAL SKILLS

- **Languages & Core:** Python, SQL
- **Machine Learning & Data Science:** Scikit-learn, Pandas, NumPy, Matplotlib/Seaborn, Deep Learning fundamentals
- **Generative AI & LLM Engineering:** LangChain, LangGraph, Retrieval-Augmented Generation (RAG), FAISS, Google Gemini API, Groq API
- **Data & BI:** Power BI, PostgreSQL, data cleaning & visualization
- **Tools & Deployment:** Streamlit, Git/GitHub, Linux, Jupyter Notebook

PROJECTS

Medical RAG Chatbot | *LangChain, Google Gemini, FAISS, Streamlit*

- Built an end-to-end domain-specific medical Q&A assistant that retrieves and cites verifiable sources, reducing hallucinated answers in a sensitive-information domain.

Multi-Agent Travel Planning System | *LangGraph, Groq, PostgreSQL*

- Developed an autonomous multi-agent travel planner with PostgreSQL-backed session checkpointing, integrating real-time AviationStack flight data and Tavily search to generate structured, budget-aware itineraries.

Book Recommender System | *Scikit-learn, Streamlit*

- Built an end-to-end collaborative filtering recommendation engine using a Nearest Neighbors model, deployed as an interactive Streamlit web application.

Bank Data Analysis Dashboard | *Power BI*

- Designed a complete data analysis workflow on real-world banking data — cleaning, transformation, and visualization — surfacing key metrics such as total loans and portfolio composition.

EDUCATION

MBA — Aviation Management (*Specializations: Business Management, Data & AI*)

In progress — first year completed

BSc — Data Science

IIMT University, Meerut | 2022 – 2025
